Dear Montgomery Elementary School families and partners,

The DeKalb County School District maintains high standards for staff conduct and the use of its technology. Employees that violate those standards are held accountable up to, and including, termination.

Recently, an investigation was opened involving an employee accused of misusing district technology resources. Once this allegation was brought to the attention of school leadership and investigated, the employee was immediately removed from the school. The employee has now been terminated, and we are sharing this limited amount of information in an attempt to keep you informed while the investigation continues.

Moving forward, please know that we will take appropriate steps to protect our students and taxpayer-provided resources.

Thank you.

Regards,

A handwritten signature in blue ink that reads "Lori M. Bolds" with a checkmark at the end.

Lori M. Bolds
Principal
Montgomery Elementary School
